Manlio Bacco was born in Andria (BT) in 1982. He received his Ph.D. in Information Engineering and Science from the University of Siena.

He works as a researcher at the Institute of Information Science and Technologies (ISTI) of the National Research Council (CNR), in Pisa, since 2012. He has been actively participating in several European-funded, national-funded, and ESA-funded research and development projects. His research interests include wireless communications, mainly in the field of aerospace and IoT communications, and cyber-physical systems.
